

Join us in honor of National Caregivers Month

Beyond Kübler-Ross: Grieving The Loss of a Love ... Who Survived

When a loved one survives a brain injury, caregivers are left with the weight of providing practical care, while also grappling with the loss of their own dreams of what life would have been like without the demands of caregiving. In this presentation, we will revisit the popular understanding of the grief process, sort out what science says about the grief process, and help participants adaptively apply it as they move within this process.

PRESENTERS:

Dr. Alison Reuter & Dr. Scott Reuter

from *The Reuter Center*. For bios and background of the featured speaker, please visit thedoctorsreuter.com

DATE & TIME:

**Tuesday, November 13, 2018
from 6:00PM to 8:00PM**

LOCATION:

**The Nina Mason Pulliam Conference Center
on the Ability 360 Campus
5025 East Washington Street
Phoenix, Arizona 85034**

AUDIENCE:

This session is intended for family and friend caregivers/care partners who are caring for or love someone who has been through a life-altering accident, illness, or injury. By special request, we are asking that you please practice self-care and make other arrangements for those who are under your supervision (both child and adult) to ensure the group can create the appropriate environment for sharing and support. Please do not bring those who you are caring for to this session.

FOOD & BEVERAGE:

Coffees, tea, and water will be available throughout. Cafe Cultivate will be open until 6pm so that you may purchase a limited selection of salads, sandwiches, and baked goods.

REGISTRATION:

This event is free and open to the public, but registration is required.
